

The Krembil Research Institute will be hosting a live virtual event on Thursday, February 11<sup>th</sup> in support of **International Day of Women and Girls in Science**. This is a public education event geared to high school and early university age students of all genders.

The virtual event will feature three highly accomplished female scientists and clinicians. Drs. Mojgan Hodaie, Valerie Wallace and Sowmya Viswanathan will give short TED talk-style presentations on their lives and careers, as well as what inspired them to enter the fields of brain, vision and arthritis research, respectively. Mayim Bialik, PhD, of 'The Big Bang Theory' and Eugenia Addy, PhD, of Visions of Science Network for Learning Inc. will also be delivering an inspirational message. The event, moderated by Dr. Gelareh Zadeh, a neurosurgeon and co-Director of the Krembil Brain Institute, is meant to inspire and engage young minds and is geared towards anyone with an interest in STEM education.

Livestream Link ⇒ <https://youtu.be/jr9DLJeKO3s>. No registration required.

Tune in to show your support and please share this free opportunity with teachers and learners in your own network. All are welcome.
